**Databases & Services:** MySQL, cPanel, InfinityFree, Hostinger, Vercel, Netlify, SMS API, Web3Forms, Chatbot Integration, Claude Code, ChatGPT, Gemini

## WORK EXPERIENCE

### Full Stack Developer — Project-Based

May 2026 – Aug 2026

**Divine Life Damayan Community Inc.** · General Santos City, South Cotabato, PH

- Developed and maintained a web-based membership and referral management system for [divinelifedamayan.com](https://divinelifedamayan.com), supporting more than 1,200 registered members.
- Built frontend interfaces and backend features using PHP and MySQL, including CMS-managed landing pages and multilingual content.

### Backend Developer — Project-Based

Nov 2025 – Dec 2025

**PowerGiant RMT** · Polomolok, South Cotabato, PH

- Developed and maintained backend functionality using PHP and MySQL based on client requirements.
- Assisted with system improvements, testing, and updates during development.
- Deployed the system to a live environment and supported post-deployment improvements, [powergiantrmt.com](https://powergiantrmt.com).

### IT Staff (OJT Trainee)

Aug 2025 – Nov 2025

**Manulife Insurance Company** · Koronadal, South Cotabato, PH

- Assisted with document preparation, printing, and daily office operations.
- Converted PDF documents into editable Word files and supported document processing.
- Assisted with routine computer-related and administrative tasks.

## PROJECTS

### POS & Financial Reporting System

Capstone Project

PHP · MySQL · JavaScript · QRlib

- Integrated point-of-sale, barcode checkout, inventory management, and synchronized financial reporting into a single system to improve transaction speed, data accuracy, and management decision-making.
- Conducted usability testing with retail managers and finance staff, achieving a **SUS score of 77.17**; research published in **IJVR**, Vol. 4, Issue 2 (Feb. 2026) — DOI: [10.56975/ijvra.v4i2.700782](https://doi.org/10.56975/ijvra.v4i2.700782).

### Tampakan Tourism System

PHP · MySQL · JavaScript · HTML/CSS · Chart.js · AI-Assisted Development

- Developed a web-based tourism system for tourist arrivals, destinations, reports, announcements, and tourism operations at [tampakantourism.site.je](https://tampakantourism.site.je).
- Implemented a chatbot and secure authentication, CSRF protection, PDO prepared statements, bcrypt hashing, rate limiting, anti-bot protection, and admin analytics using Chart.js.

### Veterinary Management System

PHP · MySQL · JavaScript · Tailwind CSS · Git

- Developed a web-based system for managing pet records, veterinary appointments, medical records, and treatment history.
- Used AI-assisted development tools to support coding, debugging, and system implementation.

## EDUCATION

### Bachelor of Science in Information Technology

2022 – 2026

**South East Asian Institute of Technology** · Tupi, South Cotabato, Philippines
